Drivers: *If you are a **independent, volunteer** or **part time** driver you may need to be keeping track of your daily driving mileage or expenses to get reimbursed.*

*If you are **self-employed** you need to keep accurate records of your daily driving mileage, income and expenses. If you don't you are costing yourself money.*

At the end of the year you are required to pay taxes on your income. To protect your driving income keep your expense receipts and record them in this software tool. Simply select the month, enter your spending, mileage and estimated income for the day. That's it! Everything is totaled automatically for the year.

Try: *There is a **free** version to try before you buy. It's an already designed, easy to use Excel workbook. Simply download and open.*
